CONTENTS FOR

FLUID MECHANICS–Soviet Research

Volume 3, Nos. 1-6, 1974

Number 1

1 **Some Features of the Behavior of Liquid Drops during Supersonic Flight of a Wedge-Shaped Body through a Two-Phase Medium**
B. E. Gel'fand, S. A. Gubin and S. M. Kogarko

7 **Formation of Bridges in a Liquid Placed in an Electric Field**
V. N. Volkov and Yu. A. Mit'kin

17 **The Variational Principle for Studying the Dynamics of Motion in Pneumatic Transport Systems**
M. V. Lur'e

22 **Losses in an Impulse Turbine Cascade in an Unsteady Flow**
V. T. Yurinskiy and I. Ya. Shestachenko

28 **On Estimating the Effect of a Turbine Stage on Energy Losses in an Annular Diffuser with Shaped Struts**
I. G. Gogolev, A. M. Drokonov and E. M. Drokonov

33 **Dynamic Effect of Flow on a Gate in the Presence of Cavitation**
P. Ye. Lysenko, V. D. Bedev and A. K. Rakhmanova

38 **Experimental Investigation of Cavitation-Induced Oscillations of Helical Inducers**
M. S. Natanzon, N. I. Bal'tsev, V. V. Bazhanov and M. R. Leydervarger

46 **Investigation of the Effect of Temperature and Salinity of Solvent on Reducing the Frictional Drag in Pipes by Means of Polymeric Additives**
A. N. Shabrin

51 **Utilization of the Kolmogorov Scale as a Parameter Defining Drag Reduction in the Flow of Polymeric Solutions**
V. A. Bazilevich

65 **Investigation of the Degradation of Polyacrylamide Solutions in Pioing Facilities**
V. A. Bazilevich, A. N. Shabrin and L. V. Grzhimalovskaya

73 **The Calculation of Form Drag in a Circular Cascade of Radial Nozzle Blading of Hydraulic Turbines**
Yu. I. Fedulov

77 **Experimental Study of Turbulent Swirled Flows in a Cylindrical Tube**
D. R. Weske and G. Ye. Sturov

83 **Study of the Applicability of Certain Statistical Models to the Problem of Shock Wave Structure**
Yu. N. Grigor'yev and M. S. Ivanov

90 **Features of Unstable Interaction between a Supersonic Jet and Infinite Baffle**
B. G. Semiletenko, B. N. Sobkolov and V. N. Uskov

96 **On the Interaction of an Underexpanded Supersonic Jet with a Finite Flat Baffle**
A. G. Golubkov, B. K. Koz'menko, V. A. Ostapenko and A. V. Solotchin

103 **Correlation of Turbine Stage Characteristics over a Wide Range of Regimes with Energy Extraction and Addition**
A. M. Topunov, Ye. V. Myachin, F. I. Kirzner and V. A. Savchenko

115 **Effect of Regeneration and Resuperheating Variables on the Thermal Efficiency of Turbines**
L. S. Sterman, M. A. Devochkin and F. V. Skalkin
120 **Experimental Investigation of Hydrodynamics and Heat Transfer during Condensation of Water Vapor at a Slightly Inclined Tube**
A. G. Sheynkman, V. N. Linetskiy and Yu. M. Brodov
126 **Some Features of Gas Turbine Units with a Two-Phase Working Fluid**
Ye. V. Ur'yev
131 **Concerning One Case of Unsteady Liquid Flow in a Tube Resulting in Circulation Reversal in Power Plants**
Yu. T. Borshchevskiy, I. M. Fedotkin and E. M. Litvinenko

Number 2

i **Problems of Fluid Mechanics**
V.V. Struminskiy

TRANSACTIONS OF THE COMPUTATIONAL CENTER

1 **The Method of Characteristics for Three-Dimensional Supersonic Flows**
2 **Numerical Methods of Solving Three-Dimensional Problems of Gasdynamics**
8 **Development of the Three-Dimensional Method of Characteristics**
17 **Statement of the Problem of Flow Past Bodies and the Principal Equations of the Three-Dimensional Method of Characteristics**
24 **The Direct Hexahedral Scheme**
34 **The Inverse Hexahedral Scheme with Through Interpolation**
45 **Scheme Utilizing Only Bicharacteristic Directions**
55 **Scheme Utilizing Two-Dimensional Characteristic Equations**
66 **Extension to the Case of Equilibrium Gas Flows**
74 **Extension to the Case of Nonequilibrium Gas Flows**
P.I. Chushkin, Doctor of Physical and Mathematical Sciences

88 **Investigation of the Dynamics of an Air Cooler with Plane-Parallel Packing**
I.G. Chumak, A.I. Kokhanskii and S.N. Rogovaya
95 **Changes in Flow Variables in Supercritical Steam-Generator Bundles Due to a Thermal Disturbance**
N.S. Leleyev
103 **The Coefficient of Dynamic Viscosity of Freon-22**
A.V. Kletskiy and S.T. Butyrskaya
108 **Experimental Investigation of the Boundary Layers of Liquid Jets Discharged into a Vacuum**
V.B. Lisovskiy
112 **An Experimental Vacuum Facility for the Study of Condensation**
S.I. Obraztsov
115 **Properties of Two-Phase Transpiration-Cooling Systems**
V.A. Mayorov and L.L. Vasil'yev
130 **Determination of the Parameters of a Stable System of Two-Phase Transpiration Cooling**
V.A. Mayorov and L.L. Vasil'yev

Number 3

FLUID-MECHANICAL MODELS OF THE FLOW OF MIXTURES

D. F. Faizullayev

i EDITOR'S FOREWORD

ii INTRODUCTION

1 CHAPTER I The Selection of a Mechanical Model for the Flow of Some Mixtures

23 CHAPTER II Some Problems in Mixture Hydrodynamics in the Interpenetration Model of the Flow of Mixtures

111 CHAPTER III Theory of the Two-Velocity Boundary Layer

142 CHAPTER IV Application of the Diffusion Model in the Solution of Some Problems in Miscible Displacement

Number 4

1 Thermophysical Properties of Liquids

2 Foreword

I. THERMOPHYSICAL PROPERTIES OF LIQUID METALS AND HIGH-TEMPERATURE MELTS

3 Theoretical and Experimental Studies of the Thermophysical Properties of Lithium Hydride
E. E. Shpil'rayn, K. A. Yakimokovich, D. N. Kagan and V. G. Shval'b

12 Study of the Thermophysical Properties of Alkali Metals Near the Melting and Freezing Points and at High Temperatures
A. S. Basin, V. N. Genrikh, A. B. Kaplun, A. A. Kiriyanenko and B. E. Semyachkin

18 Electrical Resistance of Alkali Metal Melts Containing Interacting Impurities
M. N. Arnol'dov, M. N. Ivanovskiy, A. D. Pleshivtsev, V. I. Subbotin and B. A. Shmatko

22 Calculation of the Thermophysical Properties of Metallic Melts
V. I. Kononenko and S. P. Yatsenko

29 Comprehensive Investigation of the Thermophysical Properties of Molten Boron Oxide
E. E. Shpil'rain, K. A. Yakimovich, A. F. Tsitsarkin, D. N. Kagan, L. S. Barkhatov, V. A. Fomin and Yu. Tsigenkhagen

37 Thermal Conductivity of Liquid Thallium Chalcogenides
V. N. Fedorov and V. I. Machuer

43 Viscosity and Density of Melts of the Tl-Te System
T. N. Andrianova, A. A. Aleksandrov, V. S. Okhotin, L. A. Razumeychenko and Z. I. Panina

48 The Thermodynamics of Liquid Metals
B. N. Ivanov

55 The Structure of the Surface Layer of Pure Metals
A. L. Sukhman, V. I. Kononenko and S. P. Yatsenko

II. THERMODYNAMIC PROPERTIES OF NONMETALLIC LIQUIDS AND CRITICAL PHENOMENA

59 **Some Incorrect Relationships for the Critical Point**
I. I. Novikov

63 **Higher-Order Critical Phenomena in Ternary Systems**
G. D. Efremova and A. V. Shvarts

70 **Investigation of the Liquid-Vapor Phase Equilibrium in the System HNO_3-H_2O-N_2O_4 at Temperatures of -40°C to 50°C**
A. G. Tobachnikov and M. A. Kalish

79 **Results of a Statistical Computer Analysis of the Experimental Data on the Thermodynamic Properties of Liquid and Gaseous Neon**
V. V. Altunin and O. G. Gadetskiy

88 **Generalization of Data on the Coefficient of Compressibility and Heats of Vaporization of Little-Studied Substances Using a New Point of Similarity**
V. B. Derman

96 **Investigation of the Thermodynamic Properties of Liquids over a Wide Range of Temperature and Pressure Using an Acoustic Method**
N. F. Otpushchennikov, G. M. Pan'kevich, Yu. S. Shoytov, A. L. Badalyan, V. V. Zotov and Yu.A. Neruchev

100 **Experimental Investigation of the P–V–T- Relationship of Cyclohexane over a Wide Range of Temperature and Pressure**
A. M. Kerimov and T. A. Apayev

105 **Experimental Investigation of the Isobaric Specific Heat of Electrolytes**
B. N. Egorov, V. S. Kilesso, V. I. Slepchenko and T. K. Trunova

III. INVESTIGATIONS OF THERMAL CONDUCTIVITY AND VISCOSITY

107 **On the Measurement of the Thermal Conductivity of Liquids**
L. P. Filippov

109 **Investigation of the Heat Conductivity of Toluene and an Experimental Estimate of the Contribution of the Radiant Component in the Effective Coefficient of Thermal Conductivity**
V. Z. Geller, I. A. Paramonov and G. D. Tatevosov

114 **On the Role of the Radiant Component of the Effective Coefficient of the Thermal Conductivity of Liquids**
T. V. Gurenkova, P. A. Norden and A. G. Usmanov

119 **The Temperature- and Pressure-Relationships of the Thermal Conductivity of the Liquid n-Alkanes**
Yu. L. Rastorguyev, G. F. Bogatov and B. A. Grigor'yev

126 **Use of a Relative Coaxial-Cylinder Method in Measuring the Thermal Conductivity of Liquids**
V. A. Lombach

133 **The Continuous-Heating Method for Investigating the Thermal Conductivity of Liquids, Vapors and Gases at High Temperatures and Pressures**
R. A. Mustafayev

140 **Investigation of the Thermal Conductivity of Some Binary- and Ternary-Liquid Solutions**
A. A. Gylmanov and M. Ya. Bashirov

144 **Experimental Investigation of the Thermal Conductivity of Acetates with High State Parameters**
K. D. Guseynov, A. M. Kerimov and Kh. Madzhidov

148 **Comparative Analysis of Some Equations for the Viscosity of Gases and Liquids**
V. V. Altunin and M. A. Sakhabetdinov

156 **Experimental Study of the Coefficient of Dynamic Viscosity of n-Alkanes at High Pressures and Various Temperatures**
Yu. L. Rastorguyev and A. S. Keramidi

163 **Investigation of the Viscosity of Some High-Temperature, Organic Liquid Heat-Transfer Agents**
A. A. Vasserman, V. V. Litovchenko and V. A. Tsymarnyi

IV. THERMOPHYSICAL PROPERTIES OF THE FREONS

168 **Investigation of the Viscosity of Freons**
A. G. Tkachev and S. T. Butyrskaya
172 **Thermophysical Properties of Freons**
V. A. Gruzdev, E. P. Sheludyakov, A. A. Kiriyanenko, Ya. L. Kolotov, V. A. Lavrov, A. A. Shilyakov, A. I. Shestova and A. I. Shumskaya
177 **Investigation of the Heats of Mixing of Freons**
E. I. Geller, V. F. Chaykovskiy and A. V. Egorov

Number 5

i **Foreword**
1 **Investigation of the Thermal Conductivity of Gases by Periodic Heating**
N. B. Vargaftik, Yu. K. Vinogradov and I. A. Khludnevskiy
5 **Modification of the Falling-Weight Method for the Study of the Viscosity of Chemically Reacting Gases over a Wide Temperature and Pressure Range**
O. V. Belyayeva and B. D. Timofeyev
9 **Experimental Investigation of the Thermal Conductivity of Dissociating Nitrogen Textroxide at Elevated Pressure and Temperature**
A. A. Bilyk, Yu. G. Kotelevskiy and B. D. Timofeyev
15 **The Relative Method of Calculating the Viscosity from Thermal Data**
V. I. Kudashev
18 **Thermal Conductivity of Ethylene**
A. A. Trazimanov and V. S. Lozovoy
24 **Inverse Problem of Determining the Parameters of Intermolecular Interaction from Data on Compressibility of Gases**
A. F. Dregalin and O. Yu. Kholodkova
30 **Investigation of the Feasibility of Utilizing the Method of Molecular Dynamics for Determining the Thermodynamic Properties of Gases at High Temperatures and Pressures**
A. V. Chelovskiy, A. A. Antanovich, M. A. Plotnikov and R. A. Chernyavskaya
34 **Thermal Properties of Sulfur Hexafluoride**
Ye. P. Zherdev and S. A. Ulybin
40 **Investigation of the Properties of Supercritical Ethanol**
A. M. Kerimov, M. K. Alieva and N. S. Gasanov
46 **Investigation of Thermophysical Properties of Saturated and Superheated Cesium Vapor by the Acoustical Method**
Yu. S. Trelin and I. N. Vasil'yev
55 **Mutually Limited Solubility of Gases in Three-Component Systems**
D. S. Tsiklis, V. Ya. Maslennikova and A. A. Orlova
61 **Measurement of the Compressibility and Calculation of Molal Volumes and Thermodynamic Properties of Methane at Superhigh Pressures**
D. S. Tsiklis, L. R. Linshits and S. S. Tsimmerman
64 **Thermophysical Properties of Freons**
V. A. Gruzdev, Ye. P. Sheludyakov, A. A. Kikiyanenko, Ya. L. Kolotov, V. A. Lavrov, A. A. Shilyakov, A. I. Shesterova and A. I. Shumskaya
69 **Calculation of Thermodynamic Properties of Compressed Mixtures of Real Gases**
V. A. Razumov
75 **Effect of Free-Stream Turbulence on the Flow Past a Circular Cylinder**
Ye. P. Dyban, E. Ya. Epik and L. G. Kozlova
79 **Investigation of Axisymmetric Flows of Viscous Compressible Fluids by the Finite Difference Method**
N. I. Nikitenko and A. M. Kulakovskiy
86 **Computer Study of Coolant Dynamics in Circulation Systems**
A. S. Tsyrul'nikov, G. N. Kononenko and M. B. Ravicher

91 **Effect of Inlet Conditions on the Flow Formation and Pressure Losses**
I. M. Fedotkin, Yu. T. Borshchevskiy, M. N. Chepurnoy, S. I. Tkachenko and V. E. Shnayder
95 **Coolant Filtration in Man-Made Underground Circulation Systems**
G. N. Kononenko and A. S. Tsyrul'nikov
99 **Effect of Passage Blockage and Flow Turbulence on the Flow Past a Circular Cylinder**
E. Ya. Epik and L. G. Kozlova
102 **The Fluctuation of Small Solid Particles in Turbulent Gas-Suspension Flows**
A. A. Shrayber
110 **Investigation of Recirculation in Swirled Flows by the Method of Flameout Characteristics**
A. A. Al'bitskiy
115 **Velocity Distribution in an Incompressible Turbulent Boundary Layer on a Transpiration Cooled Plate**
I. L. Mironenko
121 **Investigation of the Governing Parameter for Pressure Loss of Yarn in Spools**
E. S. Malkin, S. A. Lukashchuk and E. N. Ivanovskiy
125 **On the Diffusion of a Heavy Particle in Turbulent Flow**
A. A. Shrayber
129 **General Criterion of Pipe Flow Stability**
R. S. Kuznetskiy and M. K. Likht
134 **Flow and Thermophysical Variables in a Sudden Expansion**
M. S. Fomichev
146 **The Influence of the Salt Concentration in Water on the Entrainment of Drops during Bubbling**
A. M. Rozen, G. I. Gostinin, I. F. Davydov, S. I. Golub and A. N. Krasikov
151 **Experimental Study of Unsteady Phenomena in a Flow of Condensing Vapor in Nozzles**
M. E. Deych, G. A. Filippov, G. A. Saltanov, A. V. Kurshakov, A. N. Kukushkin and G. N. Nozdrin
158 **Characteristics of the Flow of Gas Near the Surface of a Fluidized Layer**
B. V. Berg, A. P. Baskakov and V. Yu. Shuvalov

Number 6

1 **The Karman and Reynolds Numbers and the Drag Coefficient in Ducts and Pipes**
M. S. Fomichev, N. T. Fazullin and A. V. Popov
9 **Tangential Stress Distribution in Turbulent Boundary Layers at an Adverse Pressure Gradient**
V. G. Kalmykov, A. N. Sherstyuk and T. V. Shul'gina
15 **Application of the Finite-Difference Method for Solving the Inverse Problem of Designing Turbine Blades**
M. I. Zhukovskiy, Ye. Ye. Karyakin and O. I. Novikova
22 **Pressure Loss in Nonisothermal Flows of Cryogenic Liquid in Rough Passages**
V. N. Bogin and B. V. Dzyubenko
28 **Investigation of the Residence Time of the Fluidizing Agent in the Vicinity of a Horizontal Cylinder in a Fluidized Bed**
Ye. N. Yanchuk and Yu. N. Shimanskiy
32 **Investigation of the True Local Water Contents in Curved Two-Phase Flows**
I. N. Nigmatulin, N. I. Semenov and V. S. Ryzhkov
39 **A Design Estimate of Flow Variables Leaving the Axial-Radial [Mixed Flow] Rotor of a Centrifugal Compressor**
L. F. Kulyanitsa
45 **Effect of a Cylindrical Mouthpiece on the Throughput of a Poppet Valve**
V. S. Sedach and V. M. Bludov
52 **On the Discharge Coefficient of Nozzles for Single- and Two-Phase Fluids**
V. A. Doroshenko
57 **A Specific Case of Wave Motion of a Liquid in Pipes**
Ye. M. Khatkovskiy

64 **Description of Condensation Processes in a Turbulent Atmosphere**
M. V. Buykov
82 **On Atmospheric Stability Criteria**
K. S. Karplyuk
87 **An Estimate of the Retardation of Drop Growth on Passivated Nuclei of Ammonium Chloride**
R. A. Bakhanova and A. V. Silayev
97 **The Diffraction of a Plane Wave by a Dense Acoustically Rigid Grating**
G. D. Malyuzhinets and V. M. Astapenko
111 **Nonlinear Waves in Inhomogeneous Dissipative Media**
L. A. Ostrovskiy and Ye. N. Pelinovskiy
118 **Investigation of Off-Design Regimes for Centrifugal Pumps Operating at the Extreme End of Operating Curves**
A. A. Grichenko, M. Ya. Panov and A. M. Kurganov
123 **The Flow of Activated Fluids in Rough Pipes**
I. T. El'perin and L. I. Levental'
129 **A Generalized Method for Calculating the Thermophysical Properties of Little Explored Gases and Their Mixtures**
A. G. Slyn'ko
136 **Investigation of the Thermodynamic Properties of Dense Gaseous Mixtures**
Zh. F. Doroshenko and A. L. Tsykalo
140 **Equation of State of Dense Gases**
R. M. Sevast'yanov and N. A. Zykov
149 **Experimental Investigation of the Compressibility of Uranium Hexafluoride over a Wide Range of State Variables**
V. V. Malyshev

DIAGNOSTICS AND THERMOPHYSICAL PROPERTIES OF LOW-TEMPERATURE PLASMA

155 **Polarizability and Constant of Van Der Waals Interaction of Alkali and Alkali-Earth Atoms and Similar Ions**
R. M. Bezpal'ko and I. I. Gutman
159 **The Second Virial Coefficient of the Li-Li^+ System for 4000-10,000°K**
I. I. Gutman, S. F. Gorykin and V. A. Mazur
162 **Thermophysical Properties of Weakly Ionized Disperse Heterogeneous Systems**
Ye. V. Samuylov, N. V. Voskresenskaya and Ya. P. Rabiner
